

Public Health Updates for Halton Physicians:

Alcohol misuse during the pandemic

Halton residents are more likely than Ontario residents to exceed Canada's Low-Risk Alcohol Drinking Guidelines and alcohol consumption has increased due to COVID-19. With alcohol being one of the global top five risk factors for death and disease and a causal factor in more than 200 disease and injuries, including cancer, learn how to better support your patients.

Date: Thursday, October 28, 2021

Time: 6-7 p.m.

Register: Online ([registration form](#))

Learning objectives:

Overall series learning objective:

By attending the Public Health Updates for Halton Physicians series, participants will be able to identify and discuss relevant and recent information about approaches to the prevention, diagnosis and management of key public health issues impacting their family medicine practice in both rural and urban settings.

Learning objectives for this session:

By the end of this session, participants will be able to:

- Describe local alcohol consumption trends
- Conduct alcohol misuse screening, brief intervention and referral to treatment (SBIRT) with patients

Submit your questions in advance through the registration form.

Keynote Speaker

Dr. Anna Holland, MD, CCFP (AM)

Family and Addiction Medicine Physician,
Member, Managing Alcohol Use Disorder Working Group
during COVID-19, Centre for Effective Practice
