November 29, 2021

Dear Colleagues and Administrative Staff,

I was recently appointed as an Endocrinologist by the **Halton Healthcare Services** and will be part of the Halton Diabetes Program team at Milton District Hospital and Georgetown Hospital.

I am pleased to announce the opening of my medical office at **Apex Medical Specialists. This is a new Endocrinology and Internal Medicine clinic based in Milton.**

My office location is **90 Main Street East, Unit 5, Milton, ON L9T 1N3**. Appointments are accepted by referral only and please fax your referrals to **365 877 5700**.

I previously worked for the Saskatchewan Health Authority (Prince Albert division) where I ran a community-based Endocrinology and Internal Medicine practice for 10 years. I worked concurrently in Acute Internal Medicine and Intensive Care at the Victoria Hospital.

I look forward to working with fellow colleagues and other healthcare professionals in providing the best care for patients in our community.

Sincerely,

Dr. Allison Martin-Barker, MD, FRCPC, FRCP (UK)
