

COVID COLD AND FLU CARE CLINIC

Symptoms of COVID and the flu are very similar.

Knowing when you should go to an *Assessment Centre* for a COVID test or to a *COVID, Cold and Flu Care Clinic* to help diagnose your symptoms will help you get the right care, in the right place.

You should go to a COVID, Cold and Flu Care Clinic if you:

have moderate cold, flu or COVID-like symptoms (ex. new or worsening cough, fever and/or chills, shortness of breath)

OR

tested negative for COVID and continue to have cold, flu or COVID-like symptoms

AND

need to see a doctor for an in person visit to assess your symptoms

All patients are welcome. You don't need to have a family doctor or a health card (if you do have a health card please bring it).

You can book a same or next day appointment to be assessed by a doctor, receive a COVID test (if necessary), and/or prescription.

Please book online or call, limited walk-in appointments are available.

If you need immediate medical care, always call 911 or visit your nearest emergency department.
